Renting Points

Need more points to check another destination off your bucket list? No problem. You can rent additional points for \$12 per 1,000 points when booking online or with a Vacation Guide.

If you are booking during the Standard Reservation window, you can only rent enough points to complete a portion of the last night's stay. **EXAMPLE:** If you request a reservation for 5 nights, but only have enough points for 4 nights plus a portion of the 5th, you may rent the additional points you need to complete the last night's stay.

When booking during the Express reservation window you can rent up to the amount of points you own annually (excluding PIC and Bonus contracts). If you rented points and need to cancel your vacation, you will receive a full refund of those fees spent to the original source of payment, in accordance with the cancellation policy.

Borrowing Points

Fresh out of points and want to plan another last minute getaway? That's okay. Simply borrow points from your next available Use Year. You can borrow up to the amount of points that you own in a single calendar year. If you borrow points and need to cancel your vacation, the points will be returned to the Use Year that you borrowed from, in accordance with the cancellation policy.
